Gender Male | Nationality Italian

WORK EXPERIENCE

15 May 2023 – present

INFN Technologist

INFN Laboratori Nazionali di Legnaro – Legnaro (PD), Italy

Working for the PNRR TeRabit project in the Datacloud software development team. Building an Identity and Access Management (IAM) system for the Italian and international research communities, including INFN Cloud and CERN WLCG. Managing the transition from VOMS proxy certificates to IAM tokens and the OIDC protocol. Further activities include the operations of Cloudveneto Openstack-based cloud infrastructure and the development of high level python tools to offload computationally intensive physics workloads to Kubernetes clusters in the cloud.

25 March 2021 – 14 May 2023

INFN Research Fellow

INFN Laboratori Nazionali di Legnaro – Legnaro (PD), Italy

Machine Learning for Particle Accelerators Control Systems. Technological research with focus on deep learning, anomaly detection and time series forecast. Applications in the fields of industrial control systems, beam transport optimization, predictive maintenance, root cause analysis and prognostics, in the context of the SPES project.

3 March 2016 – 24 March 2021

INFN Technician

INFN Laboratori Nazionali di Legnaro – Legnaro (PD), Italy

Design and implementation of control systems for particle accelerators (Alpi, Adige, SPES). Main working areas:

- Drivers to control hardware with EPICS
- Graphical User Interfaces
- Software libraries and procedures for high-level slow control.
- Data analysis with Machine Learning
- Alarm Handlers
- Heterogeneous systems integration
- Networking and system administration (Linux)
- Contributing to public open source software, in particular for EPICS.
- Development of innovative user interfaces based on web technologies.
- Study of centralized authentication and authorization systems.

1 July 2019 – 30 August 2019

CERN Openlab Summer Student

CERN – Geneva, Switzerland

Explorations in heterogeneous computing. Tweaking performance of CMSSW for both CPU and GPU using CUDA and heterogeneous computing libraries to enable faster execution of CMS pixel tracking. Porting of a clustering algorithm for HGCal to CUDA. Attended multiple seminars on physics and IT themes, from theoretical physics to machine learning.

3 March 2014 – 2 March 2016

INFN Scholarship

INFN Laboratori Nazionali di Legnaro – Legnaro (PD), Italy

Software development for the automatic testing of an RF power amplifier using the EPICS and CSS frameworks; maintenance and upgrades on the beam line of ALPI linear accelerator to install the new magnets control system; various software development to interface with hardware tools and expose their functionalities to the end user.

February 2011 – February 2014

Pizza Chef

Bazzolo & C. S.n.c di Bazzolo P.&C. – Legnaro (PD), Italy

Weekend job while studying at high school.

July 2012

Internship

ULSS 16, Hospital "Immacolata Concezione" – Piove di Sacco (PD), Italy

Summer internship.

ROLES AND RESPONSIBILITIES

Management roles

- IT Manager at IPAC 2023, Venice.
- Presentation Manager at IPAC 2022, Bangkok.
- Thesis supervisor for several students of the University of Padova, with projects on Machine Learning, control systems and computing infrastructure.
- Tutor for LNL 2021 and 2022 internships, with an introductory project on Machine Learning for high school students.

Science Communication and Outreach

- Guide at the INFN-LNL for visits of schools and the general public.
- Development of an interactive exhibit for the “Sperimentando” fair in Padova showing a small levitating train controlled by a PLC.
- Participation in the European Researchers’ Night 2019, at the University of Padova.
- Lectures at the Don Bosco Institute (Padova) on particle accelerators for high school students.
- Seminar “L’INFN per l’evoluzione informatica del Paese” as part of a series of seminars for the citizenship of the municipality of Legnaro organized by INFN-LNL.

EDUCATION

2020 – 2023

Ph.D. in Information Engineering

Università degli Studi di Padova, via 8 Febbraio 2, 35122 Padova (IT), Italy

Research Project Intelligent Control Systems and Machine Learning Approaches for Particle Accelerators

2017 – 2020

Master’s degree - Software Engineering

Università degli Studi di Padova, via 8 Febbraio 2, 35122 Padova (IT), Italy

Qualification obtained Master’s degree in Software Engineering - 110 Cum Laude

2013–2017

Bachelor’s degree - Information Engineering

Università degli Studi di Padova, via 8 Febbraio 2, 35122 Padova (IT), Italy

Qualification obtained Bachelor’s degree in Information Engineering - 96/110

2008–2013

High School - Scientific School

I.I.S. A. Einstein, via G. Parini 10, 35028 Piove di Sacco (PD), Italy

Qualification obtained Scientific Diploma - 95/100

COURSES AND CERTIFICATIONS

- November 2022 **SOSC 2022**
International School on Open Science Cloud, INFN – Perugia, Italy
- November 2022 **OIDC federation protocol analysis**
GARR Consortium – Online course
- May 2022 **AI@INFN Workshop**
INFN – Bologna, Italy
- April 2022 **AWS Discovery Day**
An official introduction to AWS, Fast Lane – Online course
- March 2022 **Google Cloud OnBoard**
GCP Fundamentals: Core Infrastructure, Fast Lane – Online course
- June 2021 **ML-INFN Hackaton**
Online event
- 30 April 2020 **Red Hat DO080**
Deploying containerized applications technical overview.
- July 2019 **Patatrack Hackaton**
Heterogeneous computing for CMS experiment. CERN – Geneva, Switzerland
- 23-28 October 2017 **ESC 17**
Ninth INFN Internation School on Architectures, tools and Methodologies for developing efficient large scale scientific computing applications
 - Efficient exploitation of the C++ language
 - Introduction to OpenCL and CUDA
 - OpenMP, MPI programming
- February 2017 **Schneider PLC programming**
Schneider Electric S.p.A.
 - Managing and Programming of a PLC with Unity Pro
 - Application development for supervisory systems with Vijeo Citec
- 12-14 January 2015 **Linux Embedded Drivers**
Evidence s.r.l
- 25 July 2012 **First Certificate in English - Council of Europe Level B2**
University of Cambridge – ESOL Examinations

PERSONAL SKILLS

- Mother tongue Italian

Other languages	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken interaction	Spoken production	
English	C1	C2	B2	B2	B2
French	A1	A1	-	-	-

Levels: A1 and A2: Basic user – B1 and B2: Independent user – C1 and C2: Proficient user
Common European Framework of Reference for Languages

- Technical skills**
- Software development in Python, C, C++, Java, CUDA.
 - Machine learning for control systems applications.
 - Reinforcement learning.
 - Control system for industrial facilities and physics experiments, in particular with EPICS.
 - PLCs programming and management.
 - Expert in Linux and Bash.
 - Network and system administration.
 - Cloud computing, Docker, Kubernetes, OpenStack.
 - Web technologies (React, Bootstrap, Node.js, REST, Spring Boot)
 - Database design and management.
